STANDARD FEATURES Rated for 35PSF - 140MPH (3 second gusts, not sustained)
Standard single slope roof features include the following: 14 gauge galvanized steel framing, 29 gauge metal roofing with 20 year Beckers paint system, framing spaced 5 ' on center. Single slope packages include both peak and leg bracing for additional strength and stability. Concrete anchors and rebar anchors are included in base prices for units, for ground installations on units $12^{\prime}-24^{\prime}$ wide add Earth Auger Anchor Package. Base leg heights vary by size, see above for details. Note: frame build varies by width and leg height. Dual tube rafter used for $18^{\prime}$ to $24^{\prime}$ wide units. Eagle Carports, Inc. is not responsible for stopping, or repairing leaks under base rails. Please note: Eagle Carports, Inc. does not provide site work. Customers are required to contact about local building/zoning codes for permitting purposes before order finalization.

- All cement pads must have turn down footers.
$\odot$ Lot must be cleared and leveled prior to installation.
- Price does not include site preparation.
